- Walking in rural areas occasionally through rough terrain including creeks, wooded areas, various field types and weather conditions.
- Conduct our own utility locations as required.
- Conduct or analyze data regarding line locations, construction prints, and leak detection.
- Operate various electronic devices including use of a receiver and transmitter designed to assist in the locating and verifying of underground utilities, and leak detection.
- Prepares various reports and documentation verifying marked utilities using software on a laptop or iPad.
- Complete locates to Rocky Gas Co-op Ltd. standards and schedules as required.

Requirements:

- Willing to learn and operate common GPS technologies.
- Prior utility locating experience an asset.
- Valid Class 5 driver's license with clean driver's abstract.
- Ability to work outdoors and independently.
- Previous construction/surveying experience an asset.
- Participate in the company health and safety program.
- Strong organizational skills and attention to detail.
- Excellent problem-solving skills and customer service skills with the ability to interact with clients, customers and the public.
- Be a team player
- Intermediate computer skills.

Additional Information: This project will be located throughout the Rocky Mountain House geographic region. With this position you will receive: a company provided vehicle, a company provided iPad and cell phone.

Qualifications:

Having the following training / certifications would be an asset:

- Line Locating
- Ground Disturbance
- UTV/ATV Training
- Valid Driver's License
- WHMIS
- H2S Alive
- Computer literate
- First Aid & CPR
- Defensive Driving
